

Monthly Program: Virgo 2025

English-Speaking Community of WTT in the West

The Virgin in the Virgo sign is described as having an ear of corn in one hand and a lamp in the other. The ear of corn represents her son as the spiritual food of mankind. It is a matter of interest that the winter solstice marks the return home of the fruits of cultivation in the fields. The lamp is the symbol of spiritual light or the light in darkness. Objectivity is darkness to the yogi. Our light is his darkness and his spiritual illumination through subjectivity is darkness to others. The lamp therefore represents the light of initiation in darkness. Virgin, the World Mother, conceives her son in the darkness of the midnight. After crucifixion, Mary, the mother, approached her son in the dead of the night with a lamp in her hand.
