“Sagittarius – The Planetary Lighthouse”- Ludger Philips

Sagittarius is the ninth sign of the zodiac. It corresponds with the ninth house of the horoscope, the house of initiation. This governs long journeys, dreams, aspirations and the realisation of one's own plans. This is to the ordinary man. To the student of the spiritual path his long journey is the eternal journey of the soul on the upward path. His dream is to become a Seer. His plans are one with the Cosmic Plan in their realisation. All the nobler traits of man are radiated through this sign and the ninth house. This sign is called the sign of judgement. Eminent judges are born under this sign. To the spiritualist, the judge in him is awakened through a meditation of the symbolism of this sign. With veneration and utmost humility, we enter into the mysteries of this sign, because it is impossible to interpret the splendours of the sign, even to the hundredth part.
